Welcome to our first annual newsletter! We’re excited to be wrapping up our launch year and very pleased with the solid foundation we’ve established in 2017.

• Outreach & Skills Training: 800+ people reached
• Housing Mentoring: 370 people counseled
• Enrolled Clients: 90
• Currently in Matches: 28

Education about homesharing was a priority throughout the year, as was homeshare skills training for those who’d never shared housing before. Reaching our most vulnerable potential clients, isolated seniors, required a significant push for press coverage to get the word out, and also motivated us to create partnerships with other senior-serving agencies and
HomeShareSLO vs. New Construction

Homesharing is a community-empowering, cost-effective way to address our housing issues. In our first year, 28 clients have been matched and helped with housing needs, creating 14 safe, affordable homes for residents. At $300,000 per unit, the 14 housing units created by HomeShareSLO in 2017 would have cost $4,200,000 to construct.

Client Testimonial: “I live in a larger home and I had some extra space. I’d been alone in the home for about 5 years and I thought well, maybe I should give it a try. I think they do a good job of checking people’s credentials. That was a good safety factor for me.

I think HSSLO does a real good job of matching people up. We get along really well. We make each other laugh. I would recommend it for others.”

With this solid groundwork, we look forward to continuing to build our client base and track record of successful matches in 2018. Our deepest gratitude to the individual and business donors who helped with financial and in-kind support, and to the cities of Grover Beach, Pismo Beach, Morro Bay and the City and County of SLO which provided grant funding and affordable housing in-lieu funds to support the first year of HomeShareSLO’s community work. Thank you!

Big thanks to Ecologistics, our fiscal sponsor in 2017. This group helps new community-serving organizations get their start. HomeShareSLO was one of 16 programs under their umbrella in 2017, all of us working toward building a more environmentally and economically sustainable community. We’re pleased to start 2018 with our own nonprofit status.
